[illegible]

Figure 1. The proposed model for the effect of the perceived effort on the perceived exertion. The perceived effort is the perceived effort of the subject, and the perceived exertion is the perceived exertion of the subject. The perceived effort is the perceived effort of the subject, and the perceived exertion is the perceived exertion of the subject.

Giant Victoria RHUBARB

The growing of Rhubarb plants for the wholesale trade has long been a specialty with us. Our enormous annual production is distributed over many states, and large numbers of buyers depend upon us every year for their supply.

We grow our Rhubarb on rich river-bottom soil so it makes a good, strong, husky growth. Because the soil is rather sandy, the roots come out bright and clean. When you buy Willis Rhubarb you know that you are getting the best.

Prices

GIANT VICTORIA RHUBARB

	Per 100	Per 1000
2 inches and up, whole roots	\$12.00	\$100.00
1½ to 2-inch, whole roots	7.50	70.00
1 to 1½-inch, whole roots	5.50	50.00

AUSTRIAN COPPER ROSE

Introduced in 1596, one of the oldest roses in cultivation. The colors have never been improved upon. Actually one of the most amazing roses you have ever seen. The single flowers are intense coppery-red on one side and bright golden yellow on the other. Hardy, vigorous when well established. Early bloomer.
